OPEN ENDED QUESTIONS (QUALITATIVE)

DEPARTMENT PROVIDED QUESTIONS: Questions in this section were selected by your department for inclusion on this evaluation.

What advice would you give to another student who is considering taking this course?

Comment
I would recommend the course but stress the degree of difficulty (a substantial jump in expected substantive knowledge from the previous course in the sequence) and intense time commitment required to be able to succeed in the course.
I would definitely recommend it. but be prepared to spend a lot of time to really understand everything.
Make sure you have some understanding of regression, R and proofs before starting.
Do the homework and go to office hours.
